What we check during your annual visit

Whole-home plumbing inspection

Full plumbing safety check · leak and pressure assessment · visible pipe condition review

Water heater health check

Temperature and pressure safety test · element and thermostat check · age and serial lookup · flush or sediment evaluation

Sewer line camera inspection

Camera inspection of the main sewer line

Drain and fixture performance

Aerator and showerhead inspection · scale and mineral assessment · drain flow evaluation

Water quality test

Hardness · chlorine and pH · sediment evaluation · what it means for your water heater

PREMIER

LeakSecure leak monitoring

A smart valve on your main line watches flow, pressure, temperature, humidity and water quality around the clock. It runs a daily leak test and can shut the water off automatically or from your phone. When it flags a problem, our office gets the alert too.

24/7
monitoring and daily leak test

Auto shutoff
automatic and remote, from the app

$600
credit toward installation for Premier members
